# The light at the end of the tunnel

*Get vaccinated so we can get out of this pandemic and get back to being together*

Over 4.7 million people who live, work, or study in New Jersey are now fully vaccinated.

We need to continue our efforts to get everyone vaccinated. Your vaccination matters – make today the day you decide!

## My Vaccine Story

“After a year of this pandemic, young people want to return to sports and their lives and I’m sure parents want the same...but it is not over yet.

Getting vaccinated will help youth get back to sports and help everyone do what we love to do.

**-Carlos Figueroa**

*Coach with Real Central New Jersey Soccer Club*

New Jersey is making it easier for everyone to get a vaccine by bringing vaccination sites closer to you. If your community- or faith-based organization would like to host a community vaccination event at no cost to you, please [register here](#).

# COVID-19 vaccines are

**SAFE**

**EFFECTIVE**

**FREE FOR ALL**

**You can get a vaccine if you are uninsured and/or undocumented. Getting vaccinated will have no impact on immigration status.**

# ALL New Jerseyans age 12 and older are eligible for a COVID-19 vaccine\*.

According to the CDC:

**Receiving a COVID-19 vaccine cannot cause you to be magnetic:**

COVID-19 vaccines do not contain ingredients that can produce an electromagnetic field at the site of your injection

**People who receive the COVID-19 vaccines do not shed the COVID-19 virus:**

None of the vaccines authorized for use in the United States contain a live virus

**Being near someone who received the vaccine cannot affect your menstrual cycle:** Many things can affect menstrual cycles, including stress, problems with sleep, and changes in diet or exercise.

*\* The Pfizer/ BioNTech vaccine is the only vaccine authorized for 12-17 year old individuals; it may not be administered at all sites. Please contact the vaccination site before your appointment to determine availability and consent requirements.*
