VIDEO ARTIST STATEMENT

When I was a kid, my family would visit
My father's village and me with them.
One morning my grandmother took me by
the hand and asked if I were able to listen
To the chanting of birds, suddenly she
Realized that I was not able and felt sad.
At the moment I started to feel some
Vibrations in my chest, like if their were
Poundings, I turned around and saw a group
Of musicians. This is why they became
My chanting birds, as I was able to feel
The sound vibrations in my body.
