

Zandrea Pitterson

BIPOC Presenter

I am Zandrea Pitterson, Deaf and Jamaican. I work with Deaf children at Deaf school as Deaf Facilitation Culture and Jamaica Sign Language (JSL) Tutor. I love all styles of dances. All my life, I dance when I am happy.

My joy is to be able to pass on my skill of dance to Deaf children and see them express their joy through dance. I would like to introduce Jamaican Dance to you as part of our culture. It will be fun to feel the rhythm and movement of the body which makes you feel alive. Dance can also be used as a way of communication and help to create connection between dance partners.

At the end of this experience, you will have the to move your body and enjoy the beats and rhythm when you dance.

“Reggae Dance Moves and Jamaican Street Dance”.
